Autobid.de – the auction platform for used cars

The Autobid.de business division of Auktion & Markt AG makes the latter one of the largest and most successful auction providers of commercial vehicle trading in Europe – and this has already been the case for over 35 years. Prestigious manufacturers and dealers trust in our service, just as much as banks, municipalities and operators of vehicle fleets do. The result:

- ✓ Approx. 150,000 auctioned vehicles per year
- ✓ More than 30,000 buyers from 40 countries
- ✓ With 17 locations in Germany

Autobid.de is the turbo for the trade. This is backed up by multiple accolades from our customers and the trade press. A success story that we will carry on. Preferably with you. Take advantage of the opportunity. Let's talk about your individual needs and aspirations. By the way: The quantity of vehicles has no bearing on how our auctions function, so they are also great for smaller suppliers.

Our all-inclusive package for your sales success

You want to market your vehicles as simply and conveniently as possible to gain more time to focus on your core business? We understand.

That is why we are there to serve you across Europe – from data recording to document management and marketing, right through to the vehicle logistics. Even after the sale,

we perform all the formalities for you as your sole contract partner. We also cover tax issues for you, as well as bothersome debt collection proceedings or the processing of complaints.

You finally want to tap into the international markets? Then we are the right partner for you. Because right now already more than 30 per-

cent of our vehicles are sold to customers outside Germany. You can sell your vehicles in 40 countries at the best possible daily price via our platform – entirely without VAT risk or audit problems.

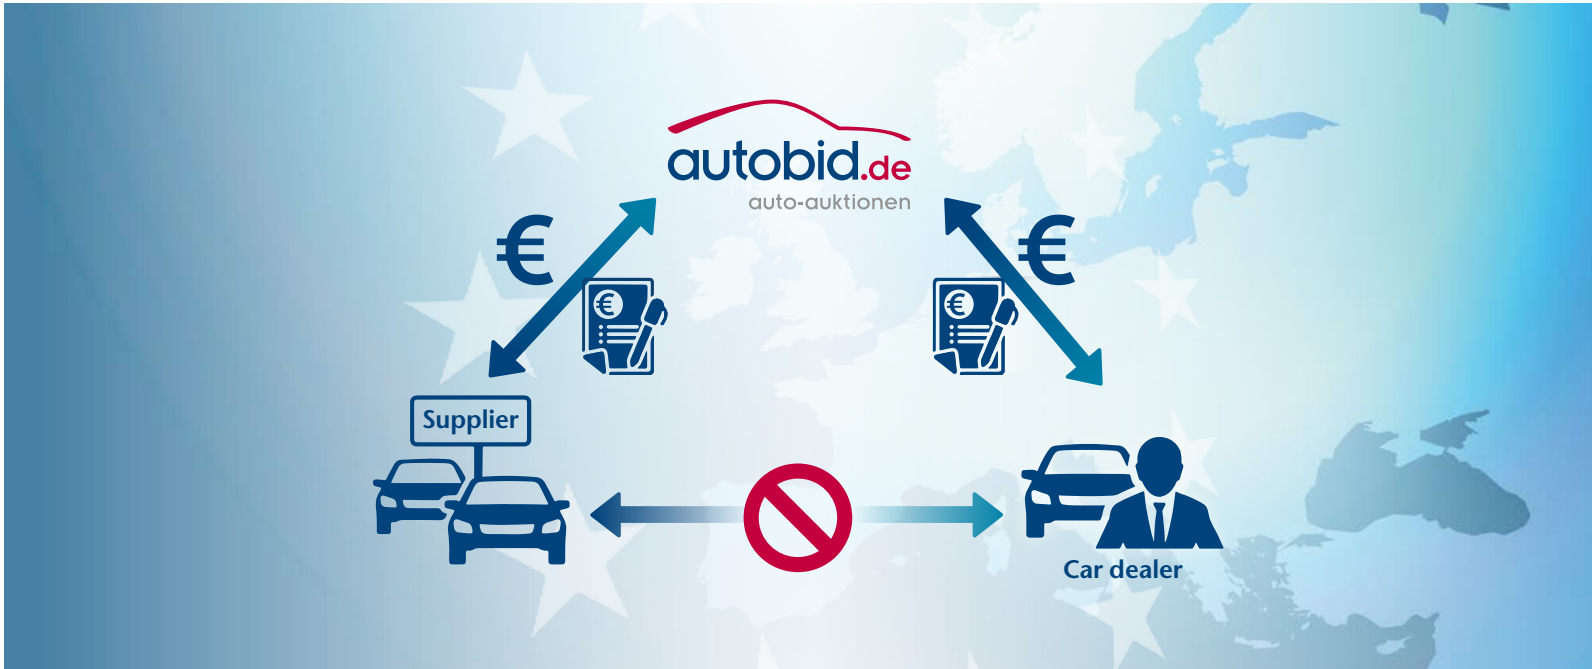

So don't waste your time with experiments. Do it right the first time. With Autobid.de.

It's this easy to auction off your used vehicles

Our goal: We want to make it as convenient and profitable as possible for you to market your used vehicles – and incredibly simple. Auctions at www.autobid.de will convince you with their transparent

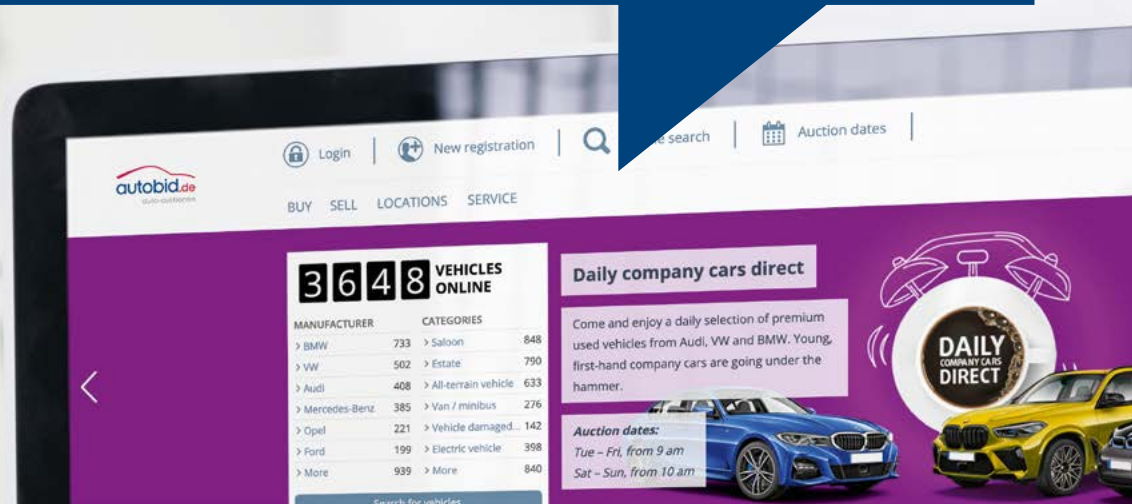

processes and clear results throughout the entire marketing channel. Included is everything from advice to shape workflows that perfectly match your needs, to detailed recording of data, right to document

handling and vehicle logistics before and after the auction. And once the car is finally sold? It's simple: You write us a bill and we pay. It couldn't be easier.

One portal. Many benefits.

- Audit-proof marketing
- Individual consultation, inventory analysis & reporting
- Presence in 40 European markets
- Opportunity for quick sales
- Autobid.de is the direct and sole contract partner, incl. debt collection management
- Assurance of quick liquidity
- Easy access to enormous market potential
- Tailor-made marketing measures

Your trust is what drives us.

Brands are a promise. Particularly in the automobile industry. As your partner, we keep our promise and will support your remarketing with optimised proceeds and tamper-proof auctions – in Germany and throughout Europe.

In addition, you have the option of benefitting from many additional services. It's therefore no wonder that so many customers, including

well-known major players on the market, have already been placing their trust in us for decades.

What distinguishes us from the competition? Our unique focus on our customers, for example, or the many times we have been praised by the trade press and car trade sector. We are recommended by notable industry names as well as the jury of the innovation compe-

tition "Top 100". But that is not all. Because with success comes responsibility. Something we live up to even outside of daily business. That's why we are also involved in various social projects, with which we seek to strengthen the cohesion of our society. We are thinking of tomorrow, today – for our customers and for genuine togetherness.

Our auctions: Variety wins

Auktion & Markt AG offers a variety of ways to find the right market for your vehicles. Regardless whether it's brand or thematic combinations: We have the perfect auction for you. Even more "unusual"

goods such as Unimogs, motor-homes, e-bikes, motorcycles or public service vehicles are successfully sold on our platform, giving Autobid.de a truly diverse character.

For fleet operators: Your direct route to vehicle sales

Whether it is phased-out company cars or special vehicles from public service vehicle inventories: Not only car dealerships but also fleet operators and managers can profit from our services. For you we organise the entire sales process, we keep

an eye on the European market, and ensure with our auctions that your vehicles from the purchased fleet are quickly sold. Take advantage of over 35 years of auction experience, and trust in our literally award-winning service.

We are there where you need us ...

Throughout Europe around 450 employees
are working for your success in the used
vehicle business
