Auktion & Markt AG introduces itself

Auktion & Markt AG is one of the largest used vehicle marketers in the trade with its Autobid.de business unit, via which more than 140,000 units are sold per year.

The vehicles are offered in open and closed dealer auctions. In the "live", "online" and "Netlive" forms of auction vehicles will be auctioned every minute – in real time! The Netlive auction will be held simultaneously on site in an auction centre and online at www.autobid.de. Registered customers have access seven days per week 24 hours per day to vehicles and can bid if they wish.

In the interests of our valued dealers, the vehicle selection and acquisition will be carried out as carefully as possible. The auction vehicles are examined by our staff in person or by recognised external experts on site. A large number of photos document the exact condition of the vehicles.

We simply offer more:
