Information

The auction process

Nothing can be easier ...

Stay in the comfort of your own office and bid convenient from your desk.

All vehicles are sold minute to minute – one after the other – in real time! The condition of each vehicle is described in detail and documented with numerous photographs. All vehicles can be “inspected” some days before they go under the hammer. And you also have the opportunity to place your first bids.

Please refer to the date overview to find the auction starting times.

Technical requirements

Should you experience any technical problems then please simply contact our IT hotline: phone +49 611 44796-833.

Please also refer to the technical questions in the „FAQ“ section to be found under “Help“.

4 Your bid

Once you have found your preferred vehicle, there are three alternatives for you to participate in the bidding process.

1. Arbitrary bid:

Enter your price in the bid field.

2. Bidding steps:

Raise the current bid in steps of € 100, € 200 or € 500.

3. Run agent:

Are you unable to follow the auction activity in person for the vehicle you are interested in? Your bidding agent can do the work for you.

Under "Set bidding agent" enter the maximum amount you want to spend for the specific vehicle. The agent will then bid higher than other bidders' bids, but only raise the bid by the minimum increase amount of € 100. This will continue until you are either the highest bidder when the auction ends, or until your preset maximum bid has been reached, and other bidders have bid higher than this amount. However, at any time you have the option of raising the maximum bid of a bidding agent which has already been set.

Please note: Each bid must be rounded up to the nearest 100 Euros. The minimum step by which a price must be entered is also 100 Euros. Prices must be entered without commas, decimal points or Euro signs.

5 Subject to reservation

It is possible to make the first bid under the starting price. Any possible difference from the starting price will be indicated in the auction. After the knockdown, should your bid still lie under the starting price, 72 hours after the auction at the latest you will receive notice by email whether or not your bid subject to a reservation is cleared for sale or not.

6 Bid history

As a logged-in user, you are able to list all submitted bids including price, day and time.

Auction barometer

This price chart is the key element of our online auction platform. Within the BMW Group auction you only see your own user name. Other bids are simply marked with the name “Bidder”.

Bids highlighted in red have not yet reached the reserve price. As soon as the reserve price has been reached, the bid will be highlighted in green and the vehicle will go to the highest bidder.

Hotbid phase

As soon as the official auction period has expired, there is still another 14 seconds available (the so-called “Hotbid phase”). During this period there is a final opportunity to submit bids. If a bid is submitted, the Hotbid phase will re-start. When it expires, the bid by the highest bidder will be accepted.

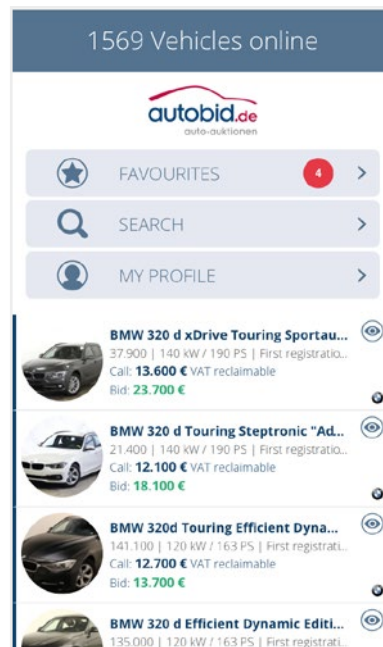

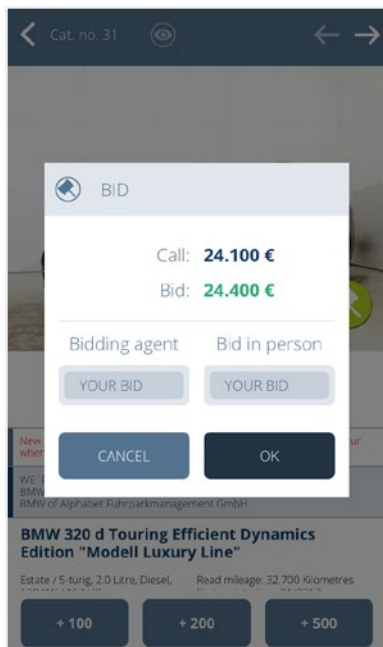

The Autobid.de app

With the Autobid.de app, which is available in 22 languages, as a registered vehicle dealer all the functions on the auction page are available to you as mobile data. You will benefit – also when you are away from your desk – from the detailed vehicle search, the in-depth vehicle details and the automatic synchronisation with **My Autobid.de**.

The functions of the new Autobid.de app:

- full bidding functionality
- integrated bidding agent
- detailed vehicle search
- clearly arranged watch list
- comprehensive vehicle details
- extensive picture gallery
- updates
